EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Denise Brown on 6/22/2004.

Cancel claims 2, 4 and 5.

A search of the prior art failed to uncover a reference that teaches or suggests the liquid biurets as covered in claims. For example, U.S. Patent Nos. 3,862,973 and 5,282,988 fail to teach the recited biurets. Specifically, while US 3,862,973 teaches a reaction of product isocyanates with alcohols to make urethanes and plastics, the patent fails to provide any reason to modify the disclosed biurets to include alcohols themselves. Applicant make the above amendments without acquiescence to the teachings of the above patents, but solely to expedite allowance of the captioned applications.

The withdrawn claims are now rejoined since they depend from allowable product claims.

Conclusion
